

### Aircraft Spray Pattern Testing

**What We Deliver!**

# IT PAYS TO SPRAY!

**SPRAYER TRACKS COST YOU YIELD AND MONEY**

**TYPICAL TRACK LOSS IS 2-3% WHERE THERE ARE NO POTHoles OR SLOUGHS.**

**Ground Fungicide Application Example**  
 50 Bushels / Acre x 3% = **1.5 Bushel loss**  
 At \$15.00 / Bushel = **\$22.50 loss**  
 Ground Application Cost + Overhead = **\$3.50/acre**  
 Producer Ground Spray = **\$26.00 Acre loss**

**Aerial Application**  
 3 Gallon / Acre = **11.50 /acre**  
 Net Gain Aerial = **\$14.50 /acre**

“Why would I hire custom ground to do my fungicide or insecticide, pay him the \$8.50 an acre and then also lose the money from tracks. The airplane just makes sense if I have one available to work with!”

It is no longer a question that aerial application is a valuable, effective tool to have at your disposal. You need a partner you can plan with year after year, that will take care of your annual fungicide, insecticide, and desiccation needs on your farm!

Clayton Air Service is delivering crop protection products at **higher water volumes**, setup with optimal droplet size to get the job done. We use the most efficient, modern, high-capacity aircraft, fitted with the latest GPS, and nozzle technology. We want to ensure that our equipment has the capacity to keep up with the growing demand and timeliness that is so important for your farm! Clayton has worked as a calibration and spray pattern analyst across Canada, and ensures that Clayton Air Service aircrafts are set up for optimal results!

Clayton Air Service wants to be and ADDED VALUE Company. We are not a cost to your farm; we want to be an asset. When we work together, we want to show you where we deliver savings in the long term financial and efficiency goals of your operation.

This business is not just a service business, it is a partnership. These are your aircraft and we want to know how we can best deliver for your needs! A lot of time and planning goes into a successful operation. We strive to build meaningful, trustworthy partnerships with our customers. Call us to make a plan for your upcoming aerial application needs so we can ensure equipment availability and timely service!

**GIVE US A CALL SO WE CAN  
PLAN TOGETHER!

## Partnership

With superior communication, highest quality product delivery, and unparalleled timelines you get the best bang for your buck that aerial application can offer! With timing being so important for many applications, when we say we are going to have a job done for you, our goal is the same day to next day service. We will do everything we can to provide this to our valued partners - YOU!

## Dedication to Success

Clayton Air Service GOALS;  
To make your operation a success.  
To add value to your operation.  
To be a service partner you can rely on.

*“I have put everything I have into creating a reliable, efficient, accountable service that works with your needs to ensure long term success!”*

- Clayton Rempel, Owner
